SECURITY EDGE IS DESIGNED BY PROFESSIONAL LOCKSMITHS PROVIDING YOU WITH THE ASSURANCE YOU HAVE CHOSEN THE LEADING PRODUCT THAT WILL HELP KEEP YOU SECURE TODAY, AND FOR MANY YEARS TO COME.

DISCOVERING THE OPTIMAL KEYING SYSTEM FOR PROTECTING YOUR PROPERTY, WHETHER IT'S A HOME, OFFICE, HOSPITAL, CONSTRUCTION SITE, SCHOOL OR APARTMENT COMPLEX, IS ALL ABOUT SELECTING THE KEYING SYSTEM THAT CAN PROVIDE YOU WITH SECURITY, FLEXIBILITY, COMPATIBILITY AND PEACE OF MIND.

Designed with the highest security in mind, Security Edge combines the ease of 6 Pin inline keying systems with a secure anti pick side bar mechanism. The Security Edge range of barrels and cylinders incorporates additional security measures to prevent force and drill attacks making it the #1 choice for your security needs.

The Security Edge range of barrels and cylinders is available as a Multi-Broach inline keyway system with a Master keyway plus your own unique side bar wave configuration making it one of the most individually secure products available.

Security Edge is the only high security product available in the market that is designed with construction keying options, making Security Edge the ideal choice for new projects and construction sites.
